# SMARTLOCK

## Swing Door Interlock

## THE SAFEST WAY TO ELEVATE.

### SAFE & SECURE

- The industry's smallest space-saving lock. Works in 2 inches of space
- Compact dimensions to meet 3" rule (1 1/8 x 1 5/8 x 1 5/8)
- No micro switches that bend or break
- All steel construction

### EASY TO INSTALL

- Converts from right hand to left hand. Simply flip the cover
- Eliminate delays due to changing door swings
- All mounting hardware included
- Metal installation jig and template
- Uses 24V AC or DC, plug and play wiring

### VERSATILE

- **SMARTLOCK II** available for use with dumbwaiter systems
- Stock one lock for all lifts
- Built-in adjustability for changing conditions and door movement
